

## LYME CAN PRESENT AS OR CAUSE THESE SYNDROMES

Abdominal pseudo-eventration	(Jessner-Kanof)
Acrodermatitis chronica atrophicans (ACA)	Bilateral carpal tunnel syndrome
Acute Acral Ischemia	Bilateral facial nerve palsy
Acute conduction disorders	Bilateral follicular conjunctivitis
Acute coronary syndrome	Bilateral keratitis
Acute exogenous psychosis	Bilateral papilloedema
Acute meningitis	Biphasic meningoencephalitis
Acute myelo-meningo-radiculitis	Bipolar Disorder
Acute peripheral facial palsy	Brain Tumor
Acute perimyocarditis	Brown recluse spider bite {Dr. B.: ???}
Acute pyogenic arthritis	Brown-Sequard syndrome
Acute reversible diffuse conduction system disease	Cardiac Disease
Acute transitory auriculoventricular block	Cardiomegaly
Acute transverse myelitis	Cardiomyopathy
Acute urinary retention	Carditis
Acquired Immune Deficiency Syndrome (AIDS)	Carpal tunnel syndrome
Algodystrophy	Catatonic syndrome
Allergic conditions	Cauda equina syndrome
Allergic conjunctivitis	Central vestibular syndrome
Alopecia	Cerebellitis
Alzheimers Disease	Cerebral atrophy
Amyotrophic lateral sclerosis (ALS - Lou Gehrig's Disease)	Cerebro-vascular disease
Amyotrophy	Cervical facet syndrome
Anamnesis	Cheilitis granulomatosa
Anetoderma	Chiasmal optic neuritis
Anorexia nervosa	ChoreaChoriocapillaritis
Antepartum fever	Chronic encephalomyelitis
Anxiety	Chronic Fatigue Syndrome
Arrhythmia	Chronic muscle weakness
Arthralgia	Chronic urticaria
Arthritis	Cerebellar ataxia
Asymmetrical hearing loss	Cogans syndrome
Atraumatic spontaneous hemarthrosis	Collagenosis
Atrioventricular block	Complete flaccid paraplegia
Attention Deficit Disorder (ADD)	Complex Regional Pain Syndrome (CRPS)
Attention Deficit Hyperactivity Disorder (ADHD)	Concomitant neuroretinitis
Bannwarths Syndrome	Conduction disorder
Behcet's disease	Conus medullaris syndrome
Bells Palsy	Coronary aneurysm
Benign cutaneous lymphocytoma	Cortical blindness
Benign lymphocytic infiltration	Coxitis
	Cranial Neuritis
	Cranial polyneuritis

Cutaneous B-cell lymphoma	Hemiparesis
Dementia	Hemophagocytic syndrome
Demyelinating disorders	Hepatic disorders
Depression	Hepatitis
Dermatomyositis	Herniated discs
Diabetes (Dr. Braun)	Holmes-Adie syndrome
Diaphragmatic paralysis	Horner's syndrome
Diffuse fasciitis	Human necrotizing splenitis
Dilated cardiomyopathy	Hydrocephalus {Dr. B.: how much of this in the past 30 years?}
Diplopia	Hyperacusis
Discopathy	Hyperbilirubinemia
Disseminated choroiditis	Hypothyroidism
Dorsal epiduritis	Idiopathic atrophoderma of Pasini and Pierini (IAPP)
Encephalitis	Idiopathic facial paralysis
Encephalomyelitis	Infarction pain
Encephalopathy	Impaired Brainstem response
Endogenous paranoid-hallucinatory syndrome	Infantile sclero-atrophic lichen
Eosinophilia	Infectious Mononucleosis
Eosinophilic fasciitis (Shulman syndrome)	Infiltrating lymphadenosis benigna cutis
Epilepsy	Inflammatory cerebrospinal fluid syndrome
Epileptic crises	Influenza
Episcleritis	Internuclear ophthalmoplegia
Epstein Barr viral illness (Mono)	Interstitial granulomatous dermatitis
Erythema chronicum migrans	Intracerebral haemorrhage
Exanthema (local and generalized)	Intracranial aneurysm
Extrapyramidal disorders	Intracranial hypertension
Facial diplegia	Intracranial mass lesions
Fascicular tachycardia	Intrauterine growth retardation
Fatal adult respiratory distress syndrome	Iritis
Fetal death	Irritable Bowel Syndrome
Fever	Isolated acute myocarditis
Fibromyalgia	Isolated lymphadenopathy
Fibrositis	Isolated neuritis of the sciatic nerve
Focal nodular myositis	Isolated oculomotor nerve paralysis
Frontotemporal atrophy	Isolated posterior cord syndrome
Generalised motor neuron disease	Jaundice
Geniculate neuralgia	Juvenile Rheumatoid Arthritis
Giant cell arteritis	Keratitis
Gonarthrititis	Keratoconus
Granuloma annulare	Left sided sudden hemiparesis
Guillain-Barr Syndrome	Lichen sclerosus
HLA-B27 negative sacroiliitis	Livedo racemosa
Headaches (severe)	Lofgren's syndrome
Hearing loss	Lupus (SLE)
Heart block	

Lymphadenosis benigna cutis	Peripheral facial palsy (Bell's)
Lymphocytoma cutis	Peripheral neuropathy
Lymphoma	Peripheral vascular disorder
Lumbo- radicular syndrome	Pericarditis
Melkersson-Rosenthal syndrome	Perimyocarditis
Memory impairment	Persistent atrioventricular block
Meningeal lymphoma	Pigment epitheliitis
Meningitis	Polymyalgia rheumatica
Meningoencephalomyelitis	Polyneuritis cranialis
Meningoencephalomyeloradiculoneuritis	Polyneuropathy
Meningoradiculitis	Polysymptomatic autoimmune disorder
Migraines	Porphyria
Mono-arthritis	Posterior scleritis (eye)
Monolateral chorioretinitis	Primary lymphoma of the nervous system
Morgagni-Adams-Stokes syndrome	Presenile dementia
(MAS)Morning glory syndrome	Progressive cerebral infarction
Morphea	Progressive facial hemiatrophy
Motor neuron syndrome	(Parry-Romberg syndrome)
Multiple mononeuropathy	Progressive stroke
Multiple Sclerosis	Progressive supranuclear paralysis
Myelopathy	Prolonged pyrexia
Myofascial pain syndrome	Propriospinal myoclonus
Myositis	Pseudo tumor Cerebrae
Neonatal respiratory distress {Dr. B.: is this crib death?}	Pseudolymphoma
Neuromyotonia	Pseudoneoplastic weight loss
Nodular panniculitis	Psychosomatic disorders
Normal-pressure hydrocephalus (NPH)	Radiculoneuritis
Nodular fasciitis	Ramsay Hunt syndrome (pleocytosis)
Non-Hodgkins lymphoma,	Raynaud's syndrome
Oculomotor paralysis	Recurrent paralysis
Oligoarthritis	Reflex sympathetic dystrophy
Opsoclonus-myoclonus syndrome	Reiter's Syndrome
Obsessive-compulsive disorder	Respiratory failure
Optic atrophy	Restless legs syndrome
Optic disk edema	Retinal pigment epithelium detachment
Organic mood syndrome	Retinal vasculitis
Optic nerve lesion	Reversible dementia
Otoneurological Disorders	Rheumatic Fever
Panuveitis	Rheumatoid Arthritis
Papillitis	Rhombencephalitis
Paralysis of abdominal muscles	Sacro-iliitis infection
Paraneoplastic polyneuropathy	SAPHO syndrome
Paranoia	Sarcoidosis
Parkinsonism	Schizophrenia
Parotitis	Schoenlein-Henoch purpura
Pars plana vitrectomy	
Parsonage and Turner syndrome	

Scleroderma	Synovitis
Secondary syphilis	Syphilis
Seizure Disorders	Symmetric Polyarthritis
Sensorineural Hearing Loss	Temporal arteritis
Septal panniculitis	Temporomandibular joint syndrome
Septic arthritis	Thrombocytopenic purpura
Seventh nerve paralysis	Thyroiditis
Sick sinus syndrome	Tourette's syndrome
Spontaneous brain hemorrhage	Transient Ischemic Attack
Stevens-Johnson syndrome	Transient left ventricular dysfunction
Stiff-man syndrome	Trigeminal Neuralgia
Still's disease	Unilateral interstitial keratitis
Stroke	Unilateral papillitis
Subacute Bacterial Endocarditis	Urticaria
Subacute multiple-site osteomyelitis	Uveitis
Subacute organic psychosyndrome	Vasculitic neuropathy
Subacute multiple-site osteomyelitis	Vasculitic mononeuritis multiplex
Subacute presenile dementia	Ventricular asystole
Subarachnoid hemorrhage	Vertigo
Sudden deafness	Vestibular neuronitis
Sudden hemiparesis	Vitreous clouding
Sudden infant death syndrome (SIDS)	
Sudeck's atrophy
